Verified publisher · 3 apps live

AMED ACHOUR

Mobile & Full-Stack Developer · Flutter · React · Node.js

Mobile and full-stack developer who ships real products end to end, from architecture to production. Founder of **Shnell** (shnell.tn), a complete logistics platform live on Google Play, and recently a developer at **DADA Rent Car** (car rental platform with AI document automation). Works in English and French, remote or on site.

EXPERIENCE

Full-Stack Developer · DADA Rent Car
Aug 2026 – Oct 2026

Car rental company · L'Aouina, Tunis · dadarentcar.com · 3 months

- Built the **React + Vite** booking website (catalogue, availability, reservations) and the agency **admin panel** for fleet, customers and contracts
- Designed and maintained the **Node.js / Express + MongoDB** REST API behind both
- Automated customer paperwork with **OCR** scanning of ID cards and driving licences, cutting manual data entry at check-in
- Built **AI extraction** of contracts and documents on **Cloudflare Workers**, turning scans into structured records
- Integrated the **WhatsApp Business API** for booking notifications, plus **online card payments**

Founder · Shnell
2025 – Present

Complete logistics platform · shnell.tn · client & driver apps live on Google Play

- Designed the full architecture and built the client and driver mobile apps in **Flutter** with **Firebase** (Auth, Firestore, FCM)
- **Matching engine** dispatching each request to the best nearby driver; real-time tracking on **Google Maps** over **WebSockets**
- Custom in-app **voice calls, video calls and messaging**; multi-region from day one (currencies, languages)
- Operations dashboard in **Angular / RxJS**; deployment, API security and performance on **Cloudflare**; Play Store releases

Customer Service & Camera Installation Lead · Netsoft
2024

Cité El Khadra, Tunis

- Led on-site installation of security camera systems; progress reports and client follow-up with the support team

Intern · Arab Tunisian Bank (ATB)
2023

Tunis

- Helped define and visualise financial transactions; contributed to project plans and milestones

PROJECTS

- **FawaNews LiveScore**: football live scores app, live on Google Play
- **AI Assistant**: Llama 3.1 chatbot served at the edge on Cloudflare Workers AI with streaming and rate limiting
- **Client websites**: sports coach website and personal portfolio (Angular, Cloudflare Pages)

EDUCATION

Bachelor's Degree in Computer Technology
2022 – 2025

Higher Institute of Technological Studies of Sidi Bouzid (ISET Sidi Bouzid), Tunisia

- Final-year project: design and full development of a security system, with planning, budget and risk management
